LOST CHILDHOOD SWEETHEART FOUND AT LAST!

Bill is 75 years old and he's never been married. Both his two brothers and sisters married and had children, so Bill had lots of nieces and nephews. He likes them very much and has always been very generous to them. When he left school at the age of fifteen, he started a small business which soon grew into a large company. By the time he was 40, Bill was a millionaire. His family all wanted him to find a wife, but he used to smile and say he was too busy with work.

When his nieces and nephews had their own families, Bill decided to pay for their children's university education. He didn't imagine that it would lead to romance, but it did.

His eldest great-niece, Annie, was the first to go to university. She had always wanted to study in Australia and because of her great-uncle's money, she could go there.

When she was in Australia, Annie often wrote to Bill. In one letter, she told him about the lady she was staying with. She was a widow, exactly the same age as Bill. She was an English woman who went to Australia with her husband in the 1950s. Although she was born in London, she was sent to the country during the Second World War and lived in Bill's village. Her name was Mary Williams. Annie was surprised when she got an email from her uncle telling her to meet him at Sydney airport the next day, and to bring Mary Williams with her.

When Bill and Mary met, they both started talking at once. Of course they remembered each other. They remembered playing together as children. They both remembered crying when Mary was sent back to London.

And what happened? Well, Bill and Mary are getting married next month, just 65 years after they first met.

Example: 0 There were five children in Bill's family. (T) / F

1 Bill started his own company after leaving school. (T) / F ✓

2 It took Bill 40 years to become a millionaire. (F) / F ✗

KEEP OUR PLANET GREEN

What can we do to help our planet?

What do you think people should or shouldn't do?

- recycling (plastic, paper, glass, . . .)
- deforestation / using fossil fuels
- air and water pollution / saving endangered species of animals

Think of all, we all should start ⁸⁹ at the little things like recycling in our homes, not cutting trees in our gardens and more. People think, that they ~~will~~ won't change ~~environmental~~ only by recycling, not cutting trees or not using cars. But they will. Moreover, ^{people} should support organisations that help ^{our} ~~environmental~~. We should plant more trees and build new orphanages for orphan animals. ~~The~~ Change begins with us, and we all should start today. Not tomorrow. So let's act so our planet better!
